**DECLARATION OF ERIC SCHACHTER OF A.B. DATA, LTD.
REGARDING NOTICE AND ADMINISTRATION**

I, Eric Schachter, on behalf of A.B. Data, Ltd. (“A.B. Data”), hereby certify that the following is true and correct and to the best of my knowledge, information, and belief:

1. I am a Vice President of A.B. Data, whose corporate office is located in Milwaukee, Wisconsin. At the request of Lead Counsel, I am providing this declaration to give the Court and the parties to this action information about the procedures and methods that will be used to provide Notice to the investors who make up the proposed Settlement Class in the above-referenced action (the “Litigation”). I make this declaration based on personal knowledge, and if called to testify, I could and would do so competently.

2. Subject to approval by the Court, A.B. Data has been retained by Lead Counsel to provide notice and claims administration services in this Litigation. Specifically, A.B. Data was retained to disseminate the Notice of Pendency of Class Action and Proposed Partial Settlement, Final Approval Hearing, and Application for an Interim Expense Award (“Notice”) and the Proof of Claim and Release Form (“Proof of Claim”) (collectively the “Notice Packet”) and cause the publication of the Summary Notice of Pendency of Class Action and Proposed Partial Settlement, Final Approval Hearing, and Application for an Interim Expense Award (“Summary Notice”).

The Settlement Class consists of all Persons who purchased or otherwise acquired Aegean Marine Petroleum Network, Inc. (“Aegean” or the “Company”) securities (defined below) between February 27, 2014 through November 5, 2018, inclusive (the “Settlement Class Period”), and were allegedly damaged thereby. Excluded from the Settlement Class are: (a) Defendants and any affiliates or subsidiaries of Defendants; (b) Persons who have been dismissed from this Action (“Dismissed Defendants”); (c) present or former officers, directors, partners or controlling persons of Aegean, its subsidiaries or its affiliates, any Defendant or any Dismissed Defendant and their immediate family members; (d) the directors’ and officers’ liability carriers and any affiliates or subsidiaries thereof of any Defendant, Dismissed Defendant or Aegean; (e) any entity in which any Defendant, Dismissed Defendant or Aegean has or has had a controlling interest; and (f) the legal representatives, heirs, estates, agents, successors or assigns of any person or entity described in the preceding categories. Also excluded from the Settlement Class is any Settlement Class Member that validly and timely requests exclusion as approved by the Court.

3. A.B. Data has successfully implemented notification and claims administration programs in hundreds of class actions. Members of our team have administered many of the most noteworthy securities class action settlements in recent years, including *In re AIG Securities Litigation*, No. 04 Civ. 8141 (S.D.N.Y.); *In re Countrywide Financial Corp. Securities Litigation*, No. 07 Civ. 05295 (C.D. Cal.); *In re Fannie Mae 2008 Securities Litigation*, No. 08 Civ. 7831 (S.D.N.Y.); *In re General Electric Co. Securities Litigation*, No. 09 Civ. 1951 (S.D.N.Y.); and *In re Facebook, Inc., IPO Securities & Derivative Litigation*, MDL No. 12-2389 (S.D.N.Y.). More information on A.B. Data’s qualifications and experience can be found on our website at www.abdataclassaction.com. A detailed description of A.B. Data’s background and capabilities, including lists of representative cases and clients, is attached as Exhibit A.

4. The proposed notice plan in this matter uses customary procedures designed to provide direct mail notification to all investors that are members of the Settlement Class and can be identified with reasonable effort. As in most securities class actions, the vast majority of potential Settlement Class Members are beneficial purchasers whose securities are held in “street name”—that is, the securities are purchased by brokerage firms, banks, institutions, and other third-party nominees in each instance in the name of the nominee, on behalf of the beneficial purchaser. Accordingly, A.B. Data maintains a proprietary database with names and mailing addresses and, in some instances, email addresses, of approximately 4,000 banks, brokers, and other nominees (the “Nominee List”). The Nominee List, which A.B. Data updates periodically, also includes institutions that regularly file third-party claims on behalf of their investor clients in securities class actions and all entities that have requested notification in every case involving publicly traded securities.

5. Further, A.B. Data will submit the applicable Notice to the Depository Trust Company (“DTC”) to post on the DTC Legal Notice System (“LENS”). LENS enables DTC member banks and brokers to review the Notice Packet and contact the Claims Administrator directly to obtain copies for their clients who may be Settlement Class Members.

6. A.B. Data will also work with the parties to the Litigation to obtain the Company’s stock transfer list (“Transfer List”) from its transfer agent. The Transfer List will have the name and contact information for each registered owner of the Company’s common stock. The investors on a company’s transfer list typically comprise a very small percentage of a class, because, as noted above, the vast majority of investors hold their securities in street name through a broker, bank, or other financial institution.

7. Direct mail notification will be accomplished here by initially sending Notice Packet to the Nominee List and the individuals and entities on the Transfer List no later than twenty-one (21) calendar days after entry of the Order Preliminarily Approving Settlement and Providing for Notice (“Notice Date”). Addresses will be checked against the United States Postal Service’s (“USPS”) National Change of Address database to identify address changes and obtain current mailing addresses where available.

8. The Notice to the Nominee List will in each instance instruct the nominees to provide the names and addresses of their clients who may be Settlement Class Members. A.B. Data will also promptly send emails to approximately 1,000 of the entities on the Nominee List that have standing requests to receive electronic notifications. The emails will similarly instruct the nominees to provide the names and addresses of their clients that may be Settlement Class Members. For any nominees that do not respond to the initial requests to facilitate Notice, A.B. Data will send supplemental notifications to encourage timely compliance.

9. A.B. Data will subsequently mail the Notice Packet to all potential Settlement Class Members identified by nominees. All name and address data obtained by A.B. Data will be reviewed to identify and eliminate exact duplicates and incomplete data prior to mailing. Each Notice Packet that is returned as undeliverable mail will be reviewed to determine if an alternative or updated address is available from the USPS and, if such an address is available, will be re-mailed to the updated or alternative address. In any instance where no such address is available from the USPS, A.B. Data will attempt to obtain updated or alternative address information from private databases and will re-mail the Notice Packet if such information is available.

10. A.B. Data will, as determined by Lead Counsel, supplement the direct mailing program, no later than seven (7) calendar days after the Notice Date, by publishing the Summary

Notice in *Investor's Business Daily* and once over *PR Newswire*, a national wire service. Nominees and potential Settlement Class Members who see the Summary Notice will be able to obtain copies of the mailed Notice Packet. In our experience, disseminating the Summary Notice in this fashion will also create added awareness of the case among potential Settlement Class Members.

11. A.B. Data will also maintain a toll-free telephone number (877-888-9760) and a case-specific website (www.aegeanPWCsettlement.com) to address Settlement Class Member inquiries. The toll-free telephone number will afford callers access to an automated attendant that answers all calls initially and presents callers with a series of choices to respond to basic questions. If callers need further help, they will have the option of being transferred to a live operator during business hours. The case-specific website will include general information about the Litigation, highlight important dates, and post key documents related to the Litigation, including downloadable versions of the Notice and Proof of Claim.

12. In our experience, the procedures proposed here have proven effective at compiling the lists of potential Settlement Class Members for purposes of providing notice in hundreds of securities class action matters. Substantially similar notice plans have been approved by numerous courts as being the best notice practicable under the circumstances.

13. At the conclusion of the notice period, A.B. Data will submit a declaration outlining the results of the implemented notice plan and the number of Notice Packets that are ultimately delivered.

Services

All Digital — From Notice to Distribution

A.B. Data is uniquely positioned to design, implement, and maintain notice and settlement administration programs using an innovative, "all-digital" approach that replaces the more traditional and less efficient methods of administration, such as newspaper ads, mailed notices, and paper checks. Many of our recent proposed notice plans and claim programs utilize the latest technologies such as microtargeted digital ads for notice, streamlined online claims, and distributing settlement funds electronically using a digital paywall. These methods provide significant cost savings, are consistent with the amendments to Rule 23 that are now in effect, and importantly provide much-needed alignment of class action notice and administration with current consumer behaviors.

Pre-Settlement Consultation

The pre-settlement consultation is a collaborative session designed to help A.B. Data clients prepare a stronger case. Our support teams simplify the task of sorting through a maze of documents during investigation and discovery, streamlining the process and preserving fund assets. From there, we assist with fully interactive media packages for court presentations and settlement negotiations. A.B. Data works closely with our clients, offering expert testimony on documents, processing, class and notice manageability, and proposed plans of allocation.

Media Services

A.B. Data continues to earn our reputation as the early innovator in integrating advanced micro-targeting techniques, including contextual targeting, behavioral targeting, and predictive modeling. Coupled with inventive digital media strategies to drive claims, case-specific banner ad development, class member research, and comScore analysis services, our multi-tiered media programs are designed to cost-effectively deliver notice to potential class members and increase claims rates.

Notice Administration

In A.B. Data, clients have a comprehensive resource with a depth of experience in direct notice. Our compliance and understanding of Rule 23 of the Federal Rules of Civil Procedure are crucial in meeting the "plain language" legal requirements for any campaign. From our sophisticated digital media capabilities and extensive global experience with class member research, our experts create notice documents that are easily understandable and cost-efficient to produce. We consult with our clients to deliver notice documents from multi-page, mailed, or emailed notice packets to concise postcards that establish the most influential and cost-effective means of communicating with potential claimants.

Claims Processing

A.B. Data continues to bring game-changing technologies to improve the speed and precision in claims processing. Our robust system for online claims submissions allows us to meticulously verify data and documentation, preserve and authenticate claims, and calculate and verify settlement amounts. In addition, our data network infrastructure includes on-site data storage, backup, contingency plans, and security for electronic and hard copy claim filings. It is all part of a total commitment to be the most innovative and comprehensive resource in the industry. At A.B. Data, we take pride in having the in-house capacity to process millions of pages, as well as the organizational integrity to treat every claim as if it were the only one.

Contact Center

A.B. Data's Contact Center is comprised of a full staff that is trained on and equipped with online and telecommunication systems to monitor and connect with class members. Associates routinely monitor class member communication for all class action administrations, including antitrust, consumer, and securities.

Utilizing monitoring software, associates watch multiple social media channels simultaneously, allowing for instantaneous routing of inquiries and interaction with claimants. Detailed and concise analytical reports outlining Contact Center activities are always provided.

Our Contact Center and case websites are capable of handling millions of class member engagements, as recently displayed in a campaign which garnered over 1.2 million website visits in two months and had more than 72,500 Facebook engagements. Facebook comments and threads are monitored and claimants are guided to the website for more information. Google AdWords and display advertising have also brought hundreds of thousands of visitors to various case websites.

A.B. Data's Contact Center also has Spanish language associates in-house and we can accommodate any language, given proper lead time. Traditional call center facilities are also available, if needed.

Case Websites

We offer a state-of-the-art technology platform that supports every step of our class action administration process. Our expert marketing professionals design customized case-specific websites that provide potential class members easy access to case information, critical documents, important deadlines, as well as the capability to file claim forms and register for future mailings about the case. Claimants can use the website to elect to receive their settlement payments by mail or by one of several digital payment options, all accessible by mobile devices.

Settlement Fund Distribution

From complete escrow services to establishment of qualified settlement funds, check printing and mailing, electronic cash or stock distribution and tax services, A.B. Data has always provided a full-service solution to Settlement Fund Distribution. Our IT team has decades of experience in developing and implementing fast, secure databases and claims administration systems that ensure class members receive the correct amount in their settlement disbursement. Today's digital capabilities allow even greater convenience for class members. In certain instances, claimants can now elect to instantaneously receive settlement payments through popular digital-payment options, such as PayPal, Amazon, and virtual debit cards.
